

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I purchased satellite radio due to the variety of music, weather, and traffic channels that are not available elsewhere as well as commercial free. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I choose to pay for and demand to hear. Thank you for your cooperation.
